永达玻璃钢专业环保设备供应商
诚实守信 创新超越 以客为尊 互利双赢

Customization Anti Oxidation FRP Elbow Flanged Glass For Water Gas Oil Convey Supply GRP

Our Product Introduction

Basic Information

- Place of Origin: ShanDong province, CHINA
- Brand Name: YONGDA
- Model Number: Customized
- Minimum Order Quantity: one piece, to be negotiated
- Price: \$30-50 per piece USD 30-50 /per piece ,to be negotiated
- Packaging Details: nude packing or bundled TEU or FR TEU ,to be negotiated
- Delivery Time: 15 days To be negotiated according order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 100 pieces per Week

Product Specification

- Application: Pipe Connection, Pipe Connector Type
- Technique: Pultrusion Hand-layup
- Product Name: Frp Elbow
- Highlight: Anti Oxidation frp elbow, Water frp elbow, Gas frp elbow Flanged

for more products please visit us on plasticfrp.com

Product Description

Customization Anti Oxidation FRP Elbow flanged glass elbow for water gas oil convey supply FRP GRP

Key attribute

Industry-specific attribute

| | |
|-------------|---|
| Application | Pipe connection, pipe connector type, etc |
| technique | Pultruded process,hand lay-up |

Other attribute

| | |
|-------------------|----------------------------|
| Diameter | DN15-DN4000,customized |
| Surface Treatment | smooth,Customized |
| Marketing Type | Hot Product 2024 |
| Length | 6m,12m or customized |
| Thickness | Customized |
| color | black,or customized |
| material | Fiber plastic,FRP, |
| Brand Name | YongDa |
| product name | Fiberglass Elbow,Frp elbow |
| place of origin | Shandong province,CHINA |
| shape | camber,Customized |
| pressure | 0.1Mpa-1.0Mpa |

Packaging and delivery

| | |
|-------------------|---|
| packaging Details | standard package or according to customers' needs |
| port | QingDao, or Customized |

Supply Ability

| | |
|---------------------|----------------------|
| selling units | single item |
| single package size | based on orders |
| Single gross weight | based on orders |
| Supply Ability | 1000 square per Week |

Lead time

| | | |
|------------------|-------|------------------|
| quantity(pieces) | 1-500 | 500 |
| Lead time(days) | 15 | To be negotiated |

Production Description

FRP elbow/flanged glass elbow

It consists of an inner surface layer, a sub-inner surface layer, a structural layer, and an outer surface layer, and we will conduct gel tests under local weather conditions to determine the proportion of resin, curing agent, and accelerator. The first inner surface layer is a corrosion-resistant layer, composed of gel coat and surface pad, resin content of more than 90%, thickness of 0.5mm.

The second inner surface layer, which is a leak-proof layer, uses alkali-free glass short cut felt and resin, and the resin content is 70%-75%. The thickness is not less than 2.1mm, and the layer can effectively prevent the expansion of fine cracks on the inner surface. Therefore, it plays a role of double protection. Structural layer, which strengthens the inner and secondary inner surface layers, resists external loads, and ensures stiffness and strength. It is made of alkali-free glass fiber and glass woven fabric with a resin content of $50\pm 5\%$. The thickness depends on the calculation of the specific conditions. The outer surface layer is an aging-resistant layer. The use of resins containing ultraviolet absorbers can effectively prevent aging under outdoor ultraviolet radiation. The thickness is 0.5mm.

Products Advantages:

the inner wall is smooth, not easy to leak, easy to maintain, not easy to deform, Good compressive performance: water pressure resistance, external tooth strength, impact strength are good and can be designed and manufactured according to the required pressure; High performance and stability of quality: smooth inner wall of the pipeline, light weight, small fluid resistance, strong temperature adaptability,

Company Profile

Weifang Yongda FRP Co., Ltd. was founded in 2009, is a professional engaged in glass fiber reinforced thermosetting plastic and other new composite materials research and development, production, sales, service, a comprehensive scale of four-in-one enterprise!

The company's main products: FRP pipes, pipe fittings, FRP purification tower series, biological deodorization filter tank, environmental protection equipment, exhaust gas treatment system, activated carbon adsorption tank, septic tank, cooling tower series, storage tanks, equipment tanks, aquaculture equipment, equipment shrouds, and to undertake anticorrosive engineering, thermal insulation engineering, VOCs purification project.

FAQ

Q1: What is your company name?

WeiFang YongDa FRP Co., Ltd

Q2: Are you a factory or a trading company?

We are a factory and a professional manufacturer of FRP products. We have more than 50 skilled technicians. In addition, we have professional mold engineers for design and production.

Q3: Where is your factory? How can I visit you?

West side of the road about 3 kilometers north of Wenhe Bridge Toll Station on National Highway 206, Ying qiu Town, Chang Le County, Weifang City, Shandong Province, China.If you come to our factory, I will arrange a pick-up for you so that we can meet up faster.

Q4: How can you guarantee the product quality?

We have the quality control system ISO9001:2015, and it's been followed strictly. We also have the professional QC team, and each our package worker will be in charge of the final inspection according to the QC instruction before packing.

Q5: Can you do OEM for me?

We accept all OEM orders, just contact us and give me your design,we will offer you a reasonable price ASAP.

Q6: What payment methods do you support?

T/T, L/C. western union
