QUALITY EXCELLENCE IS THE ETERNAL THEME

永达玻璃钢专业环保设备供应商  
诚实守信 创新超越 以客为尊 互利双赢

## Cyclone Plate FRP Packed Tower Air Scrubber Fume Treatment Desulfurization Tower For Chemical Industry

Our Product Introduction

### Basic Information

- Place of Origin: ShanDong province, CHINA
- Brand Name: YONGDA
- Model Number: Customized
- Minimum Order Quantity: one set, to be negotiated
- Price: \$1800-23000/set USD 1800-23000 per set, to be negotiated
- Packaging Details: nude packing or bundled TEU or FR TEU, to be negotiated
- Delivery Time: 15 days To be negotiated according order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 10 set per week

### Product Specification

- Application: Desulfurization Process In Industrial Plants
- Size: Customized
- Temperature Resistance: High
- Cost-Effective: Yes
- Environmental Friendly: Yes
- Maintenance: Low
- Pressure Resistance: High
- Customization: Available
- Efficiency: High
- Durability: Long-lasting
- Corrosion Resistance: Excellent
- Installation: Easy
- Material: FRP (Fiberglass Reinforced Plastic)
- Highlight: cyclone plate frp packed tower, frp desulfurization tower,

## Product Description

FRP Packed Tower/Cyclone Plate Tower Air Scrubber Tower Fume Treatment Desulfurization tower for chemical industry

### Key attribute

#### Industry-specific attribute

Application	Industry, chemical industry, foundry industry, high pollution industry
technique	Winding , hand layup

#### Other attribute

Dimension	customized
Surface Treatment	smooth ,customized
Marketing Type	Hot Product 2024
Purification efficiency	>=90%
size	Customized Size
color	green,or customized
material	Fiber Reinforced Plastic,FRP GRP
Brand Name	YongDa
product name	FRP Desulfurization Tower, FRP Purification Tower
place of origin	Shandong province,CHINA
shape	Customized
Purify Efficiency	99%

### Packaging and delivery

packaging Details	bundled,nude,as order
port	QingDao or Customized

### Supply Ability

selling units	single set
single package size	based on orders
Single gross weight	based on orders
Supply Ability	10 Set per Week

### Lead time

quantity(sets)	10	10
Lead time(days)	15	To be negotiated

### Customization

#### Customized logo

Min. order: 1

#### Customized... packaging

Min. order: 1

#### Graphic... customization

Min. order: 1

## Production Description

### Desulfurization Tower principle

Its basic principle is to use the contact between the gas and the liquid, and transports pollutants in gas to the liquid, and then separates clean gas from contaminated liquid to achieve the purpose of cleaning air.

After the particulate pollutants contacting with the detergent, the droplets or the liquid membranes diffuse onto the airflow particles or humidify the particles, so that the particles can be separated and removed by means of gravity and the inertia force. The Gaseous pollutants are transported into washing liquids through the transfer such as turbulence, molecular diffusion, equal mass transfer, and chemical reaction and other phenomena to separate them from the incoming gas. The chemical substances also can be added to the washing liquid to control odorous substances by absorption.

The exhaust gas passes through the scrubber, and the gas-producing liquid is treated by the mode of reverse adsorption--The liquid is sprayed downward from the top of the tower in the form of fog (or small droplets of water). The exhaust gas is conversely flowing from the bottom of the tower to achieve the purpose of gas-liquid contact. This treatment method can cool waste gas temperature, gas conditioning, and particles removal, and then discharged into the atmosphere after treatment of the defogging section.

## Company Profile

Weifang Yongda FRP Co., Ltd. was founded in 2009, is a professional engaged in glass fiber reinforced thermosetting plastic and other new composite materials research and development, production, sales, service, a comprehensive scale of four-in-one enterprise!

The company's main products: FRP pipes, pipe fittings, FRP purification tower series, biological deodorization filter tank, environmental protection equipment, exhaust gas treatment system, activated carbon adsorption tank, septic tank, cooling tower series, storage tanks, equipment tanks, aquaculture equipment, equipment shrouds, and to undertake anticorrosive engineering, thermal insulation engineering, VOCs purification project.

## Advanced production equipment

## Adequate inventory

## FAQ

**Q1: What is your company name?**  
WeiFang YongDa FRP Co., Ltd

**Q2: Are you a factory or a trading company?**  
We are a factory and a professional manufacturer of FRP products. We have more than 50 skilled technicians. In addition, we have professional mold engineers for design and production.

**Q3: Where is your factory? How can I visit you?**  
West side of the road about 3 kilometers north of Wenhe Bridge Toll Station on National Highway 206, Ying qiu Town, Chang Le County, Weifang City, Shandong Province, China. If you come to our factory, I will arrange a pick-up for you so that we can meet up faster.

**Q4: How can you guarantee the product quality?**  
We have the quality control system ISO9001:2015, and it's been followed strictly. We also have the professional QC team, and each our package worker will be in charge of the final inspection according to the QC instruction before packing.

**Q5: Can you do OEM for me?**  
We accept all OEM orders, just contact us and give me your design, we will offer you a reasonable price ASAP.

**Q6: What payment methods do you support?**  
T/T, L/C, western union
