Industrial Waste Gas Scrubber FRP GRP Desulfurization Tower For Odor Smell Removal

Basic Information

Place of Origin: ShanDong province, CHINA

Brand Name: YONGDAModel Number: Customized

• Minimum Order Quantity: one set, to be negotiated

• Price: \$1800-23000/set USD 1800-23000 per set

,to be negotiated

• Packaging Details: nude packing or bundled TEU or FR TEU ,to

be negotiated

Delivery Time:
 15 days To be negotiated according order

Payment Terms:
 L/C, T/T, Western Union

• Supply Ability: 10 set per week

Product Specification

Material: FRP
Corrosion Resistance: Strong
Size: Customized
Temperature Resistance: High
Longevity: Long

LongCost: AffordableEfficiency: HighInstallation: Easy

Application: Desulfurization

Pressure Resistance: High Energy Consumption: Low Environmental Friendly: Yes

Capacity: Customized

Maintenance: Low

Highlight: waste gas scrubber frp.

Product Description

Industrial Waste Gas Scrubber FRP GRP Desulfurization tower Air Pollution Control System for Odor Smell Removal

Key attribute

Industry-specific attribute

techinque	Winding , hand layup	
	Industry, chemical industry, foundry industry, high pollution industry	

Other attribute

Dimension	customized		
Surface Treatment	smooth ,customized		
Marketing Type	Hot Product 2024		
Purification efficiency	>=90%		
size	Customized Size		
color	green,or customized		
material	Fiber Reinforced Plastic,FRP GRP		
Brand Name	YongDa		
product name	FRP Desulfurization Tower, FRP Purification Tower		
place of origin	Shandong province,CHINA		
shape	Customized		
Purify Efficiency	99%		

Packaging and delivery

packaging Details	bundled,nude,as order
port	QingDao or Customized

Supply Ability

selling units	single set
single package size	based on orders
Single gross weight	based on orders
Supply Ability	10 Set per Week

Lead time

quantity(sets)	10	10
Lead time(days)	15	To be negotiated

Customization

Customized logo		
Min. order: 1		
	Customized	
	packaging	
Min. order: 1		
	Graphic	
	customization	

Min. order: 1

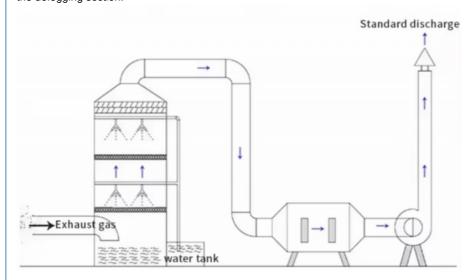

Production Description

Desulfurization Tower principle

Its basic principle is to use the contact between the gas and the liquid, and transports pollutants in gas to the liquid, and then separates clean gas from contaminated liquid to achieve the purpose of cleaning air.

After the particulate pollutants contacting with the detergent, the droplets or the liquid membranes diffuse onto the airflow particles or humidify the particles, so that the particles can be separated and removed by means of gravity and the inertia force. The Gaseous pollutants are transported into washing liquids through the transfer such as turbulence, molecular diffusion, equal mass transfer, and chemical reaction and other phenomena to separate them from the incoming gas. The chemical substances also can be added to the washing liquid to control odorous substances by absorption.

The exhaust gas passes through the scrubber, and the gas-producing liquid is treated by the mode of reverse adsorption--The liquid is sprayed downward from the top of the tower in the form of fog (or small droplets of water). The exhaust gas is conversely flowing from the bottom of the tower to achieve the purpose of gas-liquid contact. This treatment method can cool waste gas temperature, gas conditioning, and particles removal, and then discharged into the atmosphere after treatment of the defogging section.

Company Profile

Weifang Yongda FRP Co., Ltd. was founded in 2009, is a professional engaged in glass fiber reinforced thermosetting plastic and other new composite materials research and development, production, sales, service, a comprehensive scale of four-in-one enterprise!

The company's main products: FRP pipes, pipe fittings, FRP purification tower series, biological deodorization filter tank, environmental protection equipment, exhaust gas treatment system, activated carbon adsorption tank, septic tank, cooling tower series, storage tanks, equipment tanks, aquaculture equipment, equipment shrouds, and to undertake anticorrosive engineering, thermal insulation engineering, VOCs purification project.

Why Choose Us

Advanced production equipment

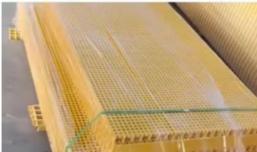

Adequate inventory

Transportation and packaging

FAQ

Q1: What is your company name? WeiFang YongDa FRP Co., Ltd

Q2: Are you a factory or a trading company?

We are a factory and a professional manufacturer of FRP products. We have more than 50 skilled technicians. In addition,

we have professional mold engineers for design and production.

Q3: Where is your factory? How can I visit you?

West side of the road about 3 kilometers north of Wenhe Bridge Toll Station on National Highway 206, Ying qiu Town, Chang Le County, Weifang City, Shandong

Province, China.If you come to our factory,

I will arrange a pick-up for you so that we can meet up faster.

Q4: How can you guarantee the product quality?

We have the quality control system ISO9001:2015, and it's been followed strictly. We also have the professional QC team, and each our package worker will be in charge of the final inspection according to the QC instruction before packing.

Q5: Can you do OEM for me?

We accept all OEM orders, just contact us and give me your design,we will offer you a reasonable price ASAP.

Q6: What payment methods do you support?

T/T, L/C. western union
