Corrosion Resistant Frp Grp Wastewater Tank Cover For Sewage Treatment System Engineering

Our Product Introduction

Basic Information

- Place of Origin: Weifang, Shandong Province, CHINA
- Brand Name: YONGDA
- Minimum Order Quantity: one square meter ,to be negotiated
- Price: \$10-100 per square meter USD 10-100 per square meter ,to be negotiated
- Packaging Details: nude packing or bundled TEU or FR TEU ,to be negotiated
- Delivery Time: 15 days To be negotiated according order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 1000 square meters per week

Product Specification

- Fire Resistance: High
- Corrosion Resistance: Excellent
- Uv Resistance: Excellent
- Durability: High
- Temperature Resistance: Up To 200
- Thickness: 2-6mm customized
- Installation: Easy
- Maintenance: Low
- Chemical Resistance: Excellent
- Weight: Lightweight
- Size: Customizable
- Color: Gray, customized
- Shape: Rectangular
- Material: Fiberglass Reinforced Plastic
- Highlight: **grp wastewater tank cover.**

Product Description

Corrosion Resistant Frp Grp Wastewater Tank Cover For Sewage Treatment System Engineering

Key attribute

Industry-specific attribute

application	Sewage treatment plant,Sewage Pool , Rainproof ,Gas Collection,etc
Technique	Hand layup/moulding

Other attribute

shape	arch ,curved ,flat or Customized
Surface Treatment	smooth,rubberized clothing based on order
Marketing Type	Hot Product 2024
dimension	customized
size	Customized Size
colour	green,gray,blue ,yellow white or Customized
material	Fiber Reinforced Plastic,FRP,GRP
Brand Name	YongDa
product name	FRP Cover /Frp cover plate /GRP cover, FRP sewage pool/tank cover
place of origin	Shandong province,CHINA
feature	Lightweight
clarity	From opacity to transparency,Customized

Packaging and delivery

packaging Details	nude & bundled,TEU or FR TEU ,as order
port	QingDao , as order

Supply Ability

selling units	single square meters
single package size	based on orders
Single gross weight	based on orders
Supply Ability	10 Set/Sets per Week

Lead time

quantity(square meters)	1-500	500
Lead time(days)	15	To be negotiated

Production Description

Work System of Sewage Pool FRP Cover:

After adding FRP cover above the sewage pool,the exhaust gas generated in the sewage pool is isolated from the air, an air outlet is added to the surface of the gas collecting hood.Meanwhile a ventilation pipe is installed.The exhaust gas enters the

exhaust gas purification tower from the ventilation pipe. To increase the exhaust gas collection, a fiberglass fan is installed in front of the purification tower, and the fan is The exhaust gas is sucked into the purification tower, and the exhaust gas is sprayed in two stages in the tower. If the exhaust gas is acidic, it is absorbed by the alkali liquid circulation. If the exhaust gas is alkaline, it is sprayed and absorbed by the acid liquid to reach the relevant standard and discharge, and the air quality is improved, to protect the environment and other purposes.

Characteristics of fiberglass corrosion-resistant extruded cover plates

1. Strong corrosion resistance, low operating and maintenance costs, and convenient maintenance: This product has high corrosion resistance, aging resistance, and does not require regular maintenance like metal products, thus significantly reducing costs. Reserve observation windows on the gas collection hood and maintenance doors at the ends for easy maintenance by workers without affecting the normal operation of the equipment
2. Long service life: Compared to other odor removal schemes for sewage tanks, the installation and construction are simple, and the service life is long.
3. Lightweight and high-strength, easy to install, and strong designability: The proportion of fiberglass gas collection hood is only 1/3 to 1/4 of that of steel products, with high load bearing strength, suitable for large-span pool bodies. At the same time, product dimensions can be flexibly designed according to the on-site pool body situation, such as curved covers, circular covers, flat covers, etc.
4. Aesthetic and anti-aging: The product is made of anti-aging, weather resistant and UV resistant gel coat resin, with smooth and beautiful surface, bright color, and service life of more than 20 years.

| Details highlight quality

Ingenuity, quality, exquisite manufacturing | Honest Management

Strict material selection

STRICT MATERIAL SELECTION

Made of FRP,

Light weight, high strength

Not afraid of the wind and the sun

01

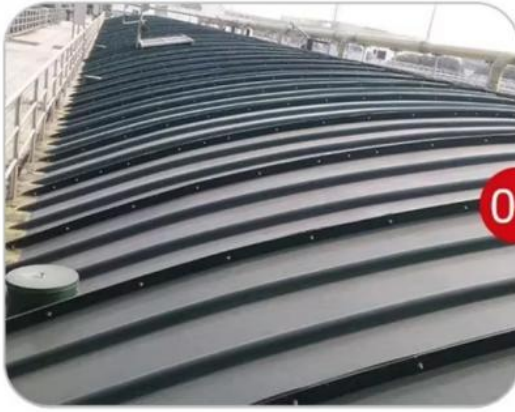

Fine workmanship

GOOD SEALING PERFORMANCE

Beautiful appearance, good drainage, simple lines and convenient installation

02

Easy to install

EASY INSTALLATION

Easy to transport, construction cost
Low usage, installation and maintenance
Convenient, short construction period

Customized on demand

LARGE CAPACITY

Physical factory, various specifications and models, can be customized on demand

■ widely used

Simple structure, easy to use, widely used in various industries

INGENUITY PROCESS CHEMICAL
EXPANSION BOLT

Factory

Chemical plant

Power plant

✓ Municipal sewage discharge

✓ Community pollution discharge

✓ Food factory sewage discharge

Company Profile

Weifang Yongda FRP Co., Ltd. was founded in 2009, is a professional engaged in glass fiber reinforced thermosetting plastic and other new composite materials research and development, production, sales, service, a comprehensive scale of four-in-one enterprise!

The company's main products: FRP pipes, pipe fittings, FRP purification tower series, biological deodorization filter tank, environmental protection equipment, exhaust gas treatment system, activated carbon adsorption tank, septic tank, cooling tower series, storage tanks, equipment tanks, aquaculture equipment, equipment shrouds, and to undertake anticorrosive engineering, thermal insulation engineering, VOCs purification project.

Why Choose Us

Advanced production equipment

FAQ

Q1: What is your company name?

Weifang YongDa FRP Co., Ltd

Q2: Are you a factory or a trading company?

We are a factory and a professional manufacturer of FRP products. We have more than 50 skilled technicians. In addition, we have professional mold engineers for design and production.

Q3: Where is your factory? How can I visit you?

West side of the road about 3 kilometers north of Wenhe Bridge Toll Station on National Highway 206, Ying qiu Town, Chang Le County, Weifang City, Shandong Province, China. If you come to our factory, I will arrange a pick-up for you so that we can meet up faster.

Q4: How can you guarantee the product quality?

We have the quality control system ISO9001:2015, and it's been followed strictly. We also have the professional QC team, and each our package worker will be in charge of the final inspection according to the QC instruction before packing.

Q5: Can you do OEM for me?

We accept all OEM orders, just contact us and give me your design, we will offer you a reasonable price ASAP.

Q6: What payment methods do you support?

T/T, L/C, western union
