Customizable FRP Pipe Fittings for Agriculture Needs and Industrial Liquid Transfer Applications

Our Product Introduction

Basic Information

- Place of Origin: Weifang, Shandong Province, CHINA
- Brand Name: YONGDA
- Minimum Order Quantity: one set ,to be negotiated
- Price: \$3000-20000 per set USD 3000-20000 per set, to be negotiated
- Packaging Details: nude packing or bundled TEU or FR TEU ,to be negotiated
- Delivery Time: 15 days To be negotiated according order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 100 sets per month

Product Specification

- Treatment Efficiency: $\geq 90\%$
- Material: FRP
- Operation: Automatic Or Manual
- Treatment Process: Physical, Chemical, And Biological Treatment
- Advantages: Compact Design, Energy-saving, And Cost-effective
- Application Area: Urban And Rural Areas, Industrial Parks
- Maintenance: Low Maintenance And Easy Operation
- Highlight: mbbf integrated sewage treatment plant, 250tons/day wastewater treatment equipment, 250tons/day integrated sewage treatment plant

for more products please visit us on plasticfrp.com

Product Description

10-250Tons/Day MBBR integrated Sewage Treatment Plant Wastewater Treatment Equipment for Domestic Municipal Industrial

Key attribute

Industry-specific attribute

Other attribute

Dimension	customized
Surface Treatment	smooth ,customized
Marketing Type	Hot Product 2024
core components	Gearbox, Pressure vessel, Pump, Gear, Bearing, Engine, Motor, PLC
size	Accept customization
color	green,blue,white,or customized
material	Fiber Reinforced Plastic,FRP GRP
Brand Name	YongDa
place of origin	Shandong province,CHINA
Voltage	110V~580V,customized
Power	10kw - 200kw,customized

Packaging and delivery

packaging Details	bundled,nude,as otrder
port	QingDao or Customized

Supply Ability

selling units	single set
single package size	based on orders
Single gross weight	based on orders
Supply Ability	10 Set per Week

Lead time

quantity(sets)	10	10
Lead time(days)	15	To be negotiated

Production Description

The integrated sewage treatment equipment adopts biological treatment process, and the organic matter in sewage is transformed into harmless substances by cultivating biological strains and utilizing the metabolism of microorganisms, thus realizing the purification of sewage. The whole process mainly includes three stages: pretreatment, biological treatment and post-treatment. The pretreatment stage mainly removes large particles and suspended solids from sewage; Biological treatment stage is the key part of the equipment, which removes organic matter, nitrogen and phosphorus and other nutrients from sewage through the action of microorganisms; In the post-treatment stage, the biological treated water is advanced to meet the discharge standard.

APPLICATION SCENARIO

Do you still worry about
sewage treatment?

Hospital sewage

Domestic sewage

Food sewage

School sewage

Residential sewage

Township sewage

High speed service sewage

Aquaculture sewage

Slaughtering sewage

Farmhouse sewage

Scenic sewage

Industrial chemical sewage

Company Profile

Weifang Yongda FRP Co., Ltd. was founded in 2009, is a professional engaged in glass fiber reinforced thermosetting plastic and other new composite materials research and development, production, sales, service, a comprehensive scale of four-in-one enterprise!

The company's main products: FRP pipes, pipe fittings, FRP purification tower series, biological deodorization filter tank, environmental protection equipment, exhaust gas treatment system, activated carbon adsorption tank, septic tank, cooling tower series, storage tanks, equipment tanks, aquaculture equipment, equipment shrouds, and to undertake anticorrosive engineering, thermal insulation engineering, VOCs purification project.

Why Choose Us

Advanced production equipment

Adequate inventory

Transportation and packaging

FAQ

Q1: What is your company name?
WeiFang YongDa FRP Co., Ltd

Q2: Are you a factory or a trading company?
We are a factory and a professional manufacturer of FRP products. We have more than 50 skilled technicians. In addition, we have professional mold engineers for design and production.

Q3: Where is your factory? How can I visit you?
West side of the road about 3 kilometers north of Wenhe Bridge Toll Station on National Highway 206, Ying qiu Town, Chang Le County, Weifang City, Shandong Province, China. If you come to our factory, I will arrange a pick-up for you so that we can meet up faster.

Q4: How can you guarantee the product quality?
We have the quality control system ISO9001:2015, and it's been followed strictly. We also have the professional QC team, and each our package worker will be in charge of the final inspection according to the QC instruction before packing.

Q5: Can you do OEM for me?
We accept all OEM orders, just contact us and give me your design, we will offer you a reasonable price ASAP.

Q6: What payment methods do you support?
T/T, L/C, western union

Production Description

Integrated sewage treatment equipment hotel/residential sewage treatment is an underground plant which adopts the advanced Biological technology and the company's scientific research and engineering practice result, it can effectively remove BOD5,COD and NH3-N. The device is characterized by the stable performance, effective treatment, economical investment, automatic operation, convenience of maintenance and small occupying space. There is no need for construction, neither heating and heat preservation.The surface can be used as green land or square land.It also can be placed on ground based on client's requirement.

As the most efficient sewage treatment device, it is widely used in treating the sewage in the area of senior hotels, village districts and residential districts, etc. The water after treatment would meet the national emission standards. The water after be treated can be used to irrigation.

Carbon steel shell

Carbon steel housing plus MBR treatment process

Fiberglass reinforced plastic alone
