

Waste Gas FRP Biological Deodorization Box Equipment Filament Winding Techinque

Basic Information

Place of Origin: ShanDong province, CHINA

Brand Name: YONGDAModel Number: Customized

• Minimum Order Quantity: one set, to be negotiated

• Price: \$ 3500-20000 / set USD 3500-20000 per set

,to be negotiated

Packaging Details: nude packing or bundled TEU or FR TEU ,to

be negotiated

Delivery Time:
 15 days To be negotiated according order

Payment Terms: L/C, T/T, Western Union
 Supply Ability: 1000 sets per month

Product Specification

Noise Level: Low

Application: Wastewater Treatment

• Material: FRP

Capacity: Customizable

• Power Consumption: Low

• Installation: Easy above Ground buried

Deodorization Method: BiologicalWarranty: 1 YearSize: Customizable

Maintenance: EasyDurability: HighAir Flow Rate: Adjustable

• Highlight: waste gas frp biological deodorization box,

winding biological deodorization equipment, winding frp biological deodorization box

Product Description

FRP Biological Deodorization Box GRP Biological Deodorization Waste Gas Deodorization Filter Purification equipment **Key attribute**

Industry-specific attribute

Application	Manufacturing Plant, Food & Beverage Factory, Garbage disposal station, Sewage treatment plant, Irrigation, Industrial Liquid Transfer, Wastewater Transport, Flood Control, Water Treatment, agriculture
techinque	Filament Winding

Other attribute

Other attribute				
Dimension	customized			
Surface Treatment	smooth ,customized			
Marketing Type	Hot Product 2024			
core components	Gearbox, Pressure vessel, Pump, Gear, Bearing, Engine, Motor, PLC			
size	Accept customization			
color	green,blue,white,or customized			
material	Fiber Reinforced Plastic,FRP GRP			
Brand Name	YongDa			
product name	FRP Integrated sewage Treatment/ MBR prefabricated sewage treatment			
place of origin	Shandong province,CHINA			
Voltage	customized			
Power	cusotmized			

Packaging and delivery

packaging Details	bundled,nude,as otrder
port	QingDao or Customized

Supply Ability

selling units	single set
single package size	based on orders
Single gross weight	based on orders
Supply Ability	10 Set per Week

Lead time

quantity(meters)	10	10	
Lead time(days)	15	To be negotiated	

Customization

Min. order: 1

Production Description

Biological Deodorzation box is another innovative biofilm reactor that has been paid much attention by researchers in recent years. It is developed by the complicated operation of fluidizing the carrier, clogging the submerged biological filter, cleaning the filter material and replacing the aerator.

The basic design idea is to be able to operate continuously, without clogging, without backwashing, with small head loss and large specific surface area. This can be achieved by growing biofilms on smaller support units that move freely with the water flow in the reactor.

In box, the carrier is moved by aeration; in anoxic/anaerobic reactors, the carrier is moved by mechanical stirring. In order to prevent the loss of packing in the reactor, a porous filter can be installed at the outlet of the reactor. MBBR is generally a cuboid or cylindrical structure. The cuboid-shaped reactor is evenly divided into several grids or no grids along the length direction of the tank with a partition. Overall, the water flow in the reactor is in a plug flow state, and in each cell, the water flow is in a fully mixed state due to aeration fluidization.

Application

sewage treatment

Garbage cleaning plant

Farm

paint plant printing Factory
Multiple support customization

petroleum &petrochemical

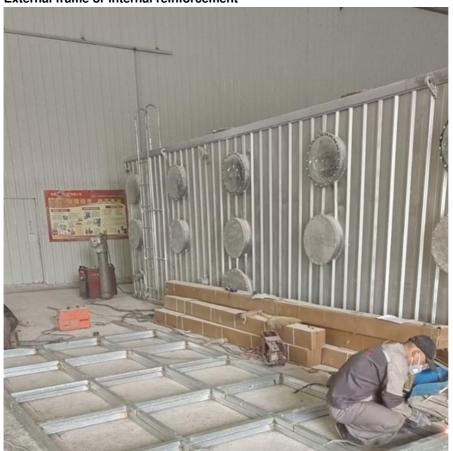

Strict material select Adopt mechanism winding Uniform wall thickness Flat and smooth appearance

External frame or internal reinforcement

Packing & Delivery

Successful Project

Company Profile

Weifang Yongda FRP Co., Ltd. was founded in 2009, is a professional engaged in glass fiber reinforced thermosetting plastic and other new composite materials research and development, production, sales, service, a comprehensive scale of four-in-one enterprise!

The company's main products: FRP pipes, pipe fittings, FRP purification tower series, biological deodorization filter tank, environmental protection equipment, exhaust gas treatment system, activated carbon adsorption tank, septic tank, cooling tower series, storage tanks, equipment tanks, aquaculture equipment, equipment shrouds, and to undertake anticorrosive engineering, thermal insulation engineering, VOCs purification project.

Why Choose Us

Advanced production equipment

Transportation and packaging

FAQ

Q1: What is your company name? WeiFang YongDa FRP Co., Ltd

Q2: Are you a factory or a trading company?

We are a factory and a professional manufacturer of FRP products. We have more than 50 skilled technicians. In addition,

we have professional mold engineers for design and production.

Q3: Where is your factory? How can I visit you?

West side of the road about 3 kilometers north of Wenhe Bridge Toll Station on National Highway 206, Ying qiu Town, Chang Le County, Weifang City, Shandong

Province, China.lf you come to our factory,

I will arrange a pick-up for you so that we can meet up faster.

Q4: How can you guarantee the product quality?

We have the quality control system ISO9001:2015, and it's been followed strictly. We also have the professional QC team, and each our package worker will be in charge of the final inspection according to the QC instruction before packing.

Q5: Can you do OEM for me?

We accept all OEM orders, just contact us and give me your design,we will offer you a reasonable price ASAP.

Q6: What payment methods do you support?

T/T, L/C. western union

Weifang Yongda FRP Co., Ltd.
