Corrosion Resistance FRP Storage Tank with Drain Valve Easy Installation And Durable Sample Provided

Our Product Introduction

Basic Information

- Place of Origin: ShanDong province, CHINA
- Brand Name: FRP Storage Tank
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: nude packing or bundled TEU or FR TEU ,to be negotiated
- Delivery Time: 15 days To be negotiated according order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 10 set per week

Product Specification

- Sample: Provided
- Accessories: Inlet/Outlet Fittings, Drain Valve
- Volume: Various Volume
- Characteristic: Easy Installation And Durable
- Core Components: Tank
- Environmental Friendly: Yes
- Temperature Resistance: High
- Maintenance: Low
- Highlight: **Corrosion Resistance FRP Storage Tank, Easy Installation fiberglass frp tanks, Durable fiberglass frp tanks**

Product Description

Product Description:

Our FRP Storage Tank is designed to be easy to install, making it an ideal choice for agricultural water storage tanks, full containment LNG storage tanks, and compressed air storage tanks. Additionally, our tank is built to last, with a long-lasting durability that ensures it will withstand the test of time.

One of the standout features of our FRP Storage Tank is its durability. Made from high-quality materials, our tank is designed to endure even the harshest conditions. Whether you're storing a highly corrosive chemical or a regular liquid, you can trust that our tank will keep your materials safe and secure.

Our FRP Storage Tank also comes equipped with a range of accessories, including inlet/outlet fittings and a drain valve. These accessories make it easy to use and maintain your tank, ensuring that you can get the most out of your investment.

When it comes to choosing a storage solution for your chemicals, ordinary, or regular liquid, our FRP Storage Tank is the clear choice. With its easy installation, durable construction, and long-lasting durability, you can trust that your materials will be safe and secure for years to come.

Features:

Product Name: FRP Storage Tank -----
Size: 1800*6050
Sample: Provided
Maintenance: Low
Production Time: 5-10 days
Accessories: Inlet/Outlet Fittings, Drain Valve
Our FRP Storage Tank is a durable and reliable solution for storing various chemicals and liquids. With its low maintenance requirements and quick production time of 5-10 days, it's an ideal choice for industrial applications. The tank comes with inlet/outlet fittings and a drain valve for easy access and operation. Whether you need a Full Containment LNG Storage Tank or a FRP Chemical Storage Tank, our product is versatile and can meet your needs.

Technical Parameters:

Product Attribute	Value
Product Name	FRP Chemical Storage Tank
Core Components	Tank
Durability	Long-lasting
Environmental Friendly	Yes
Medium	Chemicals, ordinary, regular Liquid
Size	1800*6050
Easy To Install	Yes
Maintenance	Low
Accessories	Inlet/Outlet Fittings, Drain Valve
Sample	Provided
Characteristic	Easy Installation And Durable

Applications:

The FRP Storage Tank is a high-quality product that is ideal for use in various applications. This product is manufactured in ShanDong province, CHINA, and has a minimum order quantity of 1. The price of the product can be negotiated, and it comes with packaging details that include nude packing or bundled, TEU or FR TEU, to be negotiated. The delivery time for this product is 15 days, and it can be negotiated according to the order.
The payment terms for the FRP Storage Tank include L/C, T/T, and Western Union. The supply ability of this product is 10 sets per week, and it has a plate thickness of 3mm~12mm, which can be customized according to the requirements of the application.
The FRP Storage Tank is known for its easy installation and durability, making it a perfect fit for various occasions and scenarios. Some of the product application occasions for the FRP Storage Tank include:
Flat Bottom Storage Tank
Carbon Steel Storage Tank

Full Containment LNG Storage Tank

The FRP Storage Tank is also known for its low maintenance and high temperature resistance, making it an ideal product for various environmental-friendly applications. This product is perfect for use in industries such as chemical, petroleum, pharmaceutical, food, and many more.

Customization:

Our FRP Storage Tank product is made in ShanDong province, CHINA and has a minimum order quantity of one. The price is negotiable and the packaging details can be arranged according to your preference, including nude packing or bundled, TEU or FR TEU. The delivery time is typically 15 days, but can also be negotiated based on your order.

We accept L/C, T/T, and Western Union payment terms and have a supply ability of 10 sets per week. The FRP Storage Tank product has a core component of the tank and is suitable for storing chemicals, ordinary, and regular liquid. It is also environmentally friendly.

Our FRP Storage Tank product is characterized by its easy installation and durability. We also provide samples upon request.

In addition to the FRP Storage Tank product, we also offer Fuel Oil Storage Tank and FRP Chemical Storage Tank products to meet your storage needs.

Support and Services:

Our FRP storage tanks are designed and manufactured to meet the highest industry standards for quality and durability. In the unlikely event that you experience any technical issues with your FRP storage tank, our dedicated technical support team is available to assist you. Our technical support services include:

Assistance with installation and setup

Troubleshooting technical issues

Repair and maintenance services

Product testing and inspection

Our goal is to ensure that you have a trouble-free experience with your FRP storage tank. If you have any questions or concerns, please do not hesitate to contact us.
