Long Lasting Durability FRP Pipe With Lightweight And Printed Flange

Our Product Introduction

Basic Information

- Place of Origin: ShanDong province, CHINA
- Brand Name: Fiberglass Pipe
- Model Number: Customized
- Minimum Order Quantity: one meter, to be negotiated
- Price: \$5-10/meter USD 5-10 per meter, to be negotiated
- Packaging Details: nude packing or bundled TEU or FR TEU, to be negotiated
- Delivery Time: 15 days To be negotiated according order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 1000 meters per week

Product Specification

- Shape: Round
- Use: Water, oil Treatment
- Durability: Long-lasting
- Process: Filament Winding Method
- High Strength: Yes
- Material: Fiberglass Reinforced Plastic
- Lightweight: Yes
- Diameter Range: DN50-2000mm
- Highlight: **Lightweight fiber reinforced plastic pipe,
Long-lasting Durability FRP Pipe,
Printed Flange FRP Pipe**

Product Description

Product Description:

One of the most significant advantages of our FRP Pipe is its lightweight construction. This feature makes it easy to handle and install, which saves time and labor costs. Despite its lightweight construction, our FRP Pipe is still robust and can withstand high pressure and harsh environmental conditions.

The FRP Pipe comes in three different colors – green, black, or customized – to match your specific needs. This feature makes it easier to identify different pipes for different purposes and also gives it an aesthetic appeal.

Our FRP Pipe has a temperature rating suitable for normal temperatures. However, for high-temperature applications, we offer customized solutions that can withstand extreme temperatures. This feature makes it ideal for a broad range of applications, including chemical processing, water treatment, and oil and gas industries.

The technique used in the manufacturing of our FRP Pipe is filament winding. This technique produces pipes with a high degree of strength and durability, making them suitable for use in demanding environments. The filament winding technique also gives the pipes a smooth, corrosion-resistant surface, which reduces the risk of damage and extends their lifespan.

In summary, our FRP Pipe is a top-of-the-line Composite Fiber Pipe that is suitable for a wide range of applications. Its lightweight construction, temperature rating, and filament winding technique make it a robust and durable option for demanding environments. With three color options available, it is also aesthetically pleasing and easy to identify. Contact us today to learn more about our FRP Pipe and how it can meet your specific needs.

Features:

Product Name: FRP Pipe
Shape: Round
Max Length: 12 meter
Technique: Filament Winding
Temperature Rating: Normal Temperature (High Temperature Needs To Be Explained)
Durability: Long-lasting
Keywords: Reinforced Fiberglass Pipe, Composite Fiber Pipe, Reinforced Fiberglass Pipe

Technical Parameters:

Attribute	Value
Product Name	Reinforced Fiberglass Pipe
Process	Filament Winding Method
Use	Water, Oil Treatment
Shape	Round
Diameter Range	DN50-2000mm
Durability	Long-lasting
Max Length	12 meters
Color	Green, Black, or Customized
Lightweight	Yes
Material	Fiberglass Reinforced Plastic
Temperature Rating	Normal Temperature (High Temperature Needs To Be Explained)
Alternative Names	Reinforced Fiberglass Pipe, Composite Fiber Pipe

Applications:

Customization:

Brand Name: Fiberglass Pipe
Model Number: Customized
Place of Origin: ShanDong province, CHINA
Minimum Order Quantity: one meter, to be negotiated
Price: \$5-10/meter, USD 5-10 per meter, to be negotiated
Packaging Details: nude packing or bundled, TEU or FR TEU, to be negotiated
Delivery Time: 15 days, to be negotiated according order
Payment Terms: L/C, T/T, Western Union
Supply Ability: 1000 meters per week
Temperature Rating: Normal Temperature (High Temperature Needs To Be Explained)
Flange: Printed
Color: Green, Black, Or Customized
Diameter Range: DN50-2000mm
Technique: Filament Winding
Fiber Reinforced Polymer Pipe

Support and Services:

Our FRP Pipe product comes with comprehensive technical support and services to assist you with any issues or concerns you may have. Our team of experts is available to provide you with technical support for installation, maintenance, and repair of the product. We also offer training services to ensure that your staff is equipped with the knowledge and skills necessary to handle the FRP Pipe product effectively and efficiently. In addition, we provide customization services to tailor our FRP Pipe product to your specific needs and requirements. Our team of engineers will work with you to develop a solution that meets your unique specifications. Finally, we offer a warranty on all our FRP Pipe products to give you peace of mind and ensure your satisfaction with our product.
