品质卓越是永恒的主题
QUALITY EXCELLENCE IS THE ETERNAL THEME

永达玻璃钢专业环保设备供应商
诚实守信 创新超越 以客为尊 互利双赢

Horizontal Fiberglass Acid Base Frp Storage Tank , FRP Storage Tank , Fiberglass Chemical Tank High Density

Our Product Introduction

Basic Information

- Place of Origin: ShanDong province, CHINA
- Brand Name: YONGDA
- Model Number: tank
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: nude packing or bundled TEU or FR TEU ,to be negotiated
- Delivery Time: 15 days To be negotiated according order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 10 set per week

Product Specification

- Color: Generally Green And Customizable
- Density: 1.5~2.2
- Size: Customizable
- Temperature: Room Temperature And High Temperature Require Prior Communication
- Warranty: 10 Years
- Highlight: **fiberglass acid base frp storage tank ,
high density frp storage tank ,
high density frp horizontal tank**

Product Description

Product Description:

Chemical fiberglass reinforced plastic (FRP tank) is a corrosion-resistant container made of fiber-reinforced plastic (FRP), designed specifically for industries such as chemical engineering, environmental protection, and water treatment. It is composed of high-performance resin matrix and glass fiber winding composite, which combines lightweight, high strength and excellent corrosion resistance, making it an ideal choice to replace traditional metal and plastic cans

Strong corrosion resistance

-Using resin matrices such as vinyl ester, epoxy, unsaturated polyester, etc., it can withstand most chemical media such as acid, alkali, salt, organic solvents, etc., avoiding the risk of corrosion.

Lightweight and high-strength	-The material density is only 1/4 of steel, but its strength is close to carbon steel, making it easy to transport and install, and reducing infrastructure costs.
Long life design	The inner lining layer adopts high-density resin and surface felt structure, effectively preventing leakage, and the service life can reach 15-20 years under normal use conditions.
Customized and flexible	-Support customized volume (1m ³ to 200m ³), shape (vertical/horizontal), interface position, and anti-corrosion coating thickness as needed.
Environmental Protection and Safety	Non toxic, free from metal ion pollution, compliant with environmental standards such as ISO and GB, suitable for storage in food grade or high-purity media

Support and Services:

The FRP Storage Tank product technical support and services include:

Installation guidance and support

Product troubleshooting and problem-solving

Product maintenance and repair services

Product upgrading and customization services

Product training and education services for clients and users

Our technical support and services team is available to help clients and users with any questions or issues related to the FRP Storage Tank product. We strive to provide timely and effective solutions to ensure the optimal performance and longevity of our products.
