Expandable Design Frp Chemical Storage Tank With Core Components

Our Product Introduction

Basic Information

- Place of Origin: ShanDong province, CHINA
- Brand Name: FRP Storage Tank
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: nude packing or bundled TEU or FR TEU, to be negotiated
- Delivery Time: 15 days To be negotiated according order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 10 set per week

Product Specification

- Application: Liquid Storage
- Corrosion Resistance: Strong
- Capacity Range: 1m³~200m³ (expandable Design)
- Design Pressure: Atmospheric Pressure~0.6MPa (low-pressure Type)
- Accessories: Advance Communication
- Inlet Diameter: Customized
- Model: V-007
- Feature: Corrosion Resistance
- Highlight: **Core Components Frp Chemical Storage Tank, Expandable Frp Chemical Storage Tank, Core Components Expandable frp chemical tank**

Product Description

frp chemical storage tank with core components frp tank design pressure atmospheric pressure-0.6mpa low-pressure type

Product Description:

The FRP Storage Tank is a versatile and durable product designed for various industrial applications. Its core component is the FRP tank, known for its strength and corrosion resistance. With a weight of approximately 100kg or more, the tank offers ample storage capacity for various liquids and chemicals, depending on the actual situation.

The panel thickness of the FRP Storage Tank is customized to ensure optimal performance and structural integrity. This customization allows for flexibility in meeting specific storage requirements and ensuring long-term durability.

Equipped with a float switch for water level control, the FRP Storage Tank offers precise monitoring and management of liquid levels, making it suitable for a wide range of liquid storage applications.

With a design pressure ranging from Atmospheric Pressure to 0.6MPa, the FRP Storage Tank is categorized as a low-pressure type, suitable for applications where moderate pressure levels are required. This design ensures safe and efficient storage of liquids while maintaining structural stability.

The FRP Storage Tank is a reliable solution for various industries requiring efficient and secure storage of liquids. Whether used as a compressed air storage tank, full containment LNG storage tank, or for other industrial applications, this versatile product offers superior performance and durability.

Applications:

One of the primary application scenarios for the FRP Storage Tank is as a Fuel Oil Storage Tank. These tanks are essential for storing fuel oil safely and efficiently. The FRP material ensures that the tank is resistant to corrosion, making it a reliable choice for fuel storage. Another key application area for the FRP Storage Tank is in the storage of compressed air. These tanks are designed to withstand the pressure of compressed air and provide a secure storage solution. The strong corrosion resistance of the FRP material ensures that the tank remains durable even under high-pressure conditions.

Manufactured in ShanDong province, CHINA, the FRP Storage Tank comes with a range of optional accessories such as Level Gauge, Manhole, Flange Interface, Anti Overflow Device, Insulation Jacket, and more. These accessories enhance the functionality of the tank and make it suitable for different requirements.

The FRP Storage Tank is equipped with a Float Switch for water level control, ensuring efficient operation and preventing overflow.

Additionally, the tank features Advance Communication accessories for enhanced monitoring and control.

With a minimum order quantity of 1 and a supply ability of 10 sets per week, the FRP Storage Tank offers flexibility in purchasing options.

The pricing is negotiable, and packaging details can be customized according to requirements.

Delivery time for the FRP Storage Tank is 15 days, with payment terms including L/C, T/T, and Western Union. The model V-007 is a reliable and efficient choice for storage needs across various industries.

Customization:

Product Customization Services for FRP Storage Tank:

- Brand Name: FRP Storage Tank
- Place of Origin: ShanDong province, CHINA
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: nude packing or bundled, TEU or FR TEU, to be negotiated
- Delivery Time: 15 days, To be negotiated according order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 10 set per week
- Installation Method: It Can Be Buried On The Ground
- Corrosion Resistance: Strong
- Inlet Diameter: Customized
- Capacity range: 1m³~200m³ (expandable Design)
- Feature: Corrosion Resistance

Support and Services:

Our FRP Storage Tank product comes with comprehensive Product Technical Support and Services to ensure optimal performance and customer satisfaction. Our team of experts is available to provide assistance with installation, maintenance, troubleshooting, and any other technical inquiries you may have. Additionally, we offer training programs and resources to help you maximize the benefits of our FRP Storage Tank product. Rest assured that our dedicated technical support team is committed to addressing your needs promptly and efficiently.

Packing and Shipping:

Product Packaging:

The FRP Storage Tank is carefully packaged in a sturdy cardboard box to ensure safe transportation. The tank is secured with foam padding to prevent any damage during shipping.

Shipping:

Once the order is placed, the FRP Storage Tank will be shipped using a reliable courier service. Customers will receive a tracking number to monitor the delivery status. The tank will be delivered to the provided address within the estimated delivery time.

FAQ:

Q: What is the brand name of this storage tank?

A: The brand name is FRP Storage Tank.

Q: Where is the place of origin for the FRP Storage Tank?

A: The FRP Storage Tank is from ShanDong province, China.

Q: What is the minimum order quantity for the FRP Storage Tank?

A: The minimum order quantity is 1.

Q: What are the available payment terms for purchasing the FRP Storage Tank?

A: The available payment terms include L/C, T/T, and Western Union.

Q: What is the supply ability of the FRP Storage Tank per week?

A: The supply ability is 10 sets per week.
