Fiberglass Buried FRP Septic Tank Sedimentation Tank No Leakage

Our Product Introduction

Basic Information

- Place of Origin: ShanDong province, CHINA
- Brand Name: yongda
- Minimum Order Quantity: one meter, to be negotiated
- Price: \$5-10/meter USD 5-10 per meter, to be negotiated
- Packaging Details: nude packing or bundled TEU or FR TEU, to be negotiated
- Delivery Time: 15 days To be negotiated according order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 10 set per week

Product Specification

- Advantage: Long Life, High Strength
- Maintenance: Low Maintenance Required
- High Load Bearing: Yes
- Anti-Corrosion Coating: Yes
- Durability: Long-lasting
- Highlight: **No Leakage FRP Septic Tank, Sedimentation Tank FRP Septic Tank, Buried FRP Septic Tank**

Product Description

Product Description:

Fiberglass reinforced septic tank refers to a specialized equipment made of synthetic resin as the matrix and glass fiber reinforced material for treating domestic sewage. Glass reinforced plastic septic tanks are composite material products actively promoted by the country, with advantages such as light weight, high strength, good toughness, corrosion resistance, bright colors, and mirror finish.

It has far surpassed similar products made of ceramics, hard plastics, steel and other materials, and is widely used in chemical, petroleum, construction, textile, aviation, navigation, transportation, power, metallurgy, machinery, medical, food, papermaking, environmental protection and other fields.

Type	horizontal
Leakage Prevention	Excellent
Leakage Prevention	Excellent
Maintenance	Low Maintenance Required
Anti-Corrosion Coating	Yes

Weifang Yongda Fiberglass Co., Ltd., founded in 2009, is a comprehensive scale enterprise specializing in the research and development, production, sales, and service of new composite materials such as glass fiber reinforced thermosetting plastics. The company has a registered capital of 12 million yuan and covers an area of 50000 square meters. The company has a large number of professional technical talents and continuously develops and researches new products. Currently, it has 4 professional FRP product production lines and its products are exported to the whole country. Since its establishment, the company has always adhered to the business principles of people-oriented and integrity-based, enabling the enterprise to maintain stable, rapid, and strong development in the fierce market competition. The company always adheres to a warm service attitude, strong scientific research and technological capabilities, advanced production equipment and manufacturing processes, strict quality inspection methods, and a perfect after-sales service system to provide customers with product services.
